

# MEME

If you understand them all, you are a true data scientist

## he tried to install CUDA on Windows

sometimes SVM and RF are better than Neural Networks

## how to build a CNN

When you see red characters on the R console

But it's just a  
package import

colab after the 90th epoch:  
"you have been disconnected  
because of inactivity"  
me:

every data  
science problem

Have mercy! Please!

me

There is no mercy.

A graphic showing the text "RandomForest.fit()" in a stylized font, set against a background of blue and white lightning bolts.

ME USING A  
RESNET 152
